The Netherlands

WHO AM I ?

I am a Software Engineer and love what I do. I have a DevOps mindset and I'm always eager to learn, solve problems, perfect my skills and take on challenges.

I moved to the Netherlands in 2019, and I was born in 1996 in Barcelona, Spain.

You could also describe me as a Free Software Advocate, an Emacs user, Guix and Nix enthusiast, Haskell, Lisp, Scala enjoyer, functional programmer, and perfectionist.

WORK EXPERIENCE

↳ Vandebron B.V. - **Software Engineer**
Amsterdam, The Netherlands
August 2024 ⇒ present

- Back-end, asynchronous and event-driven services with Scala, ZIO, REST APIs
- Distributed micro-services, Kafka, PostgreSQL, Elasticsearch

Client-side scripting with JavaScript and jQuery in combination with server-side templates.

↳ Universidade do Algarve - **IT Associate's degree**
Faro, Portugal
September 2017 ⇒ September 2019

Graduated with 190/200 score. Obtained maximum score for software engineering internship.

Java, PHP, SQL, Javascript, GNU/Linux, Excel, Alfresco BPM

DRIVING: B driver's license, vehicles up to 3,5t

MY FREE TIME

I like building and tweaking computers, blogging about my tech opinions and discoveries and playing strategy games sometimes.

I love playing classical and electric guitar.

You might also find me doing CrossFit, sanding furniture down, removing weeds from the garden, or improving my house.
